

## Products Care Instructions

### Warranty

Camerich provides limited warranty coverage to products listed in the price list for a period of one year. Additionally, the wood and metal frames of Sofa products are warranted for a period of ten years. The warranty starts from the date of delivery, and the warranty is against defects in materials or workmanship. The Limited Warranty does not cover the following:

- (i) Normal wear and tear or any improper use
- (ii) Products that have been modified or altered in any way
- (iii) Damages resulting from excessive soiling, improper, or unapproved cleaning/assembling/dis-assembling methods
- (iv) Damages resulting from shipping and delivery
- (v) Fading or damages resulting from exposure to sunlight or other environmental factors

Replacement parts will be warranted for only the remaining period of the original warranty.

### Fabric Upholstered Products Care Instructions

Vacuum-clean fabric upholstered products every two weeks to minimize the presence of dust. Use fabric cleansers to lift stains, but please test the cleanser on back areas of the product first. If washing is necessary, we recommend finding a professional dry cleaner to perform the task. Maintain the shape and elasticity of cushions by patting hard once a week. During rainy or moist seasons or environments, please use a dehumidifier in the space.

### Leather Upholstered Products Care Instructions

Minimize the presence of dust every two weeks, using a piece of soft cloth by gently wiping the surface. If utilizing a vacuum cleaner on a leather surface, be sure to use a soft and gentle brush head so not to scratch the surface. To get rid of stains, use a soft cloth and leather cleanser. Please do not use a wet cloth or tissue on the leather.

In the summer time, the leather's natural pores will absorb human sweat, producing odor. To resolve this, use a piece of soft and damp cloth to wipe the product. Moreover, always use professional caring agents to protect the leather.

### Wood Furniture Care Instructions

Wipe the furniture with a piece of damp cloth in the direction of grain. Dust accelerates the ageing process in woods, where dust most easily collects, clean thoroughly on a regular basis. In the event of a stain, clean-up as soon as possible.

Do not use water-soluble agents such as gasoline or alcohol to wipe the wood. Do not use wet tissue or wet cloth, because the alcohol content in wet tissue may render damage to the finish.

If cleaning has been neglected for a long period of time, we advise that you use professional cleaning agent. Apply adequate amount of the agent onto a soft cotton cloth to clean the furniture, and then use the other side of the cloth to wipe the agent off.

### **Glass Care Instructions**

To clean oil-stained glass, use a very small amount of liquid detergent first, then wash the area with water, and finally wipe it dry with a soft cloth.

### **Marble Care Instructions**

To remove stains, apply natural cleansers onto a soft sponge and gently scrub the stains. Then use a clean cloth to wipe again. Do not use a steel wired brush or steel wool pad to scrub the surface.
